

How to Transfer Messages from iPhone to PC?

1 Please download and install the latest version of Tansee iPhone Message Transfer [here](#).

Additionally, to access iPhone messages, you will need to install the **Apple Mobile Device Support** component [64-bit](#) or [32-bit](#).

Another option: 'Apple Mobile Device Support' component is included in **iTunes**. Click [here](#) to download and install the latest version of iTunes and verify that it is able to read your iPhone, iPad or iPod Touch.

After Tansee reads out all the messages, click the button labeled 'Save' located at the bottom of the screen.

Choose to save all your iPhone, iPad, or iPod messages to your PC in ANTS, HTML, TEXT, PDF or JPG format.

By selecting save to .ANTS format, you can backup all messages from iPhone or iPad to computer, and also set a password to protect your SMS, MMS and iMessages database for personal privacy.

Select the desired contact from the Tansee contact list, and then click 'Save.'

Select the messages by date and then click 'Save'.

Save as ANTS file

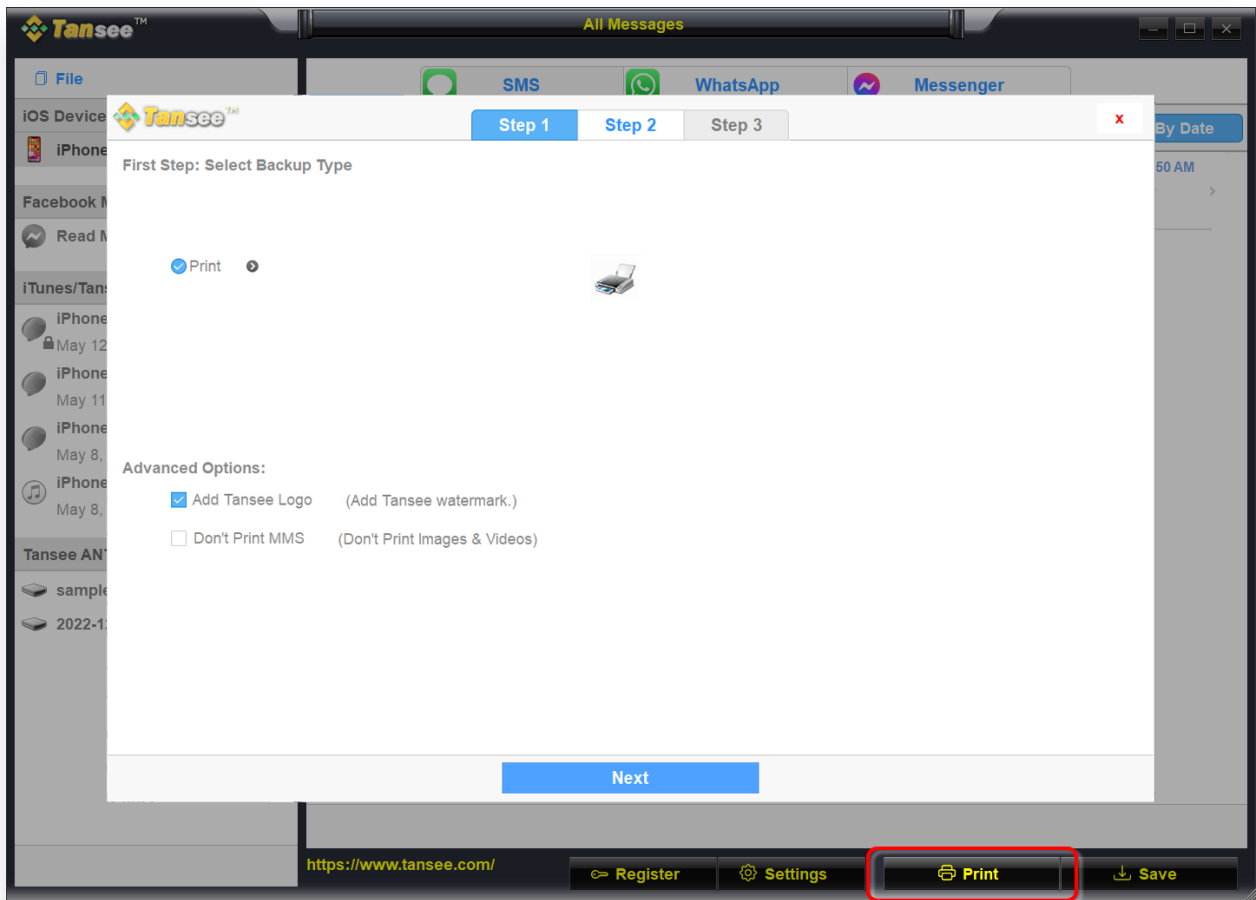

Save as PDF file

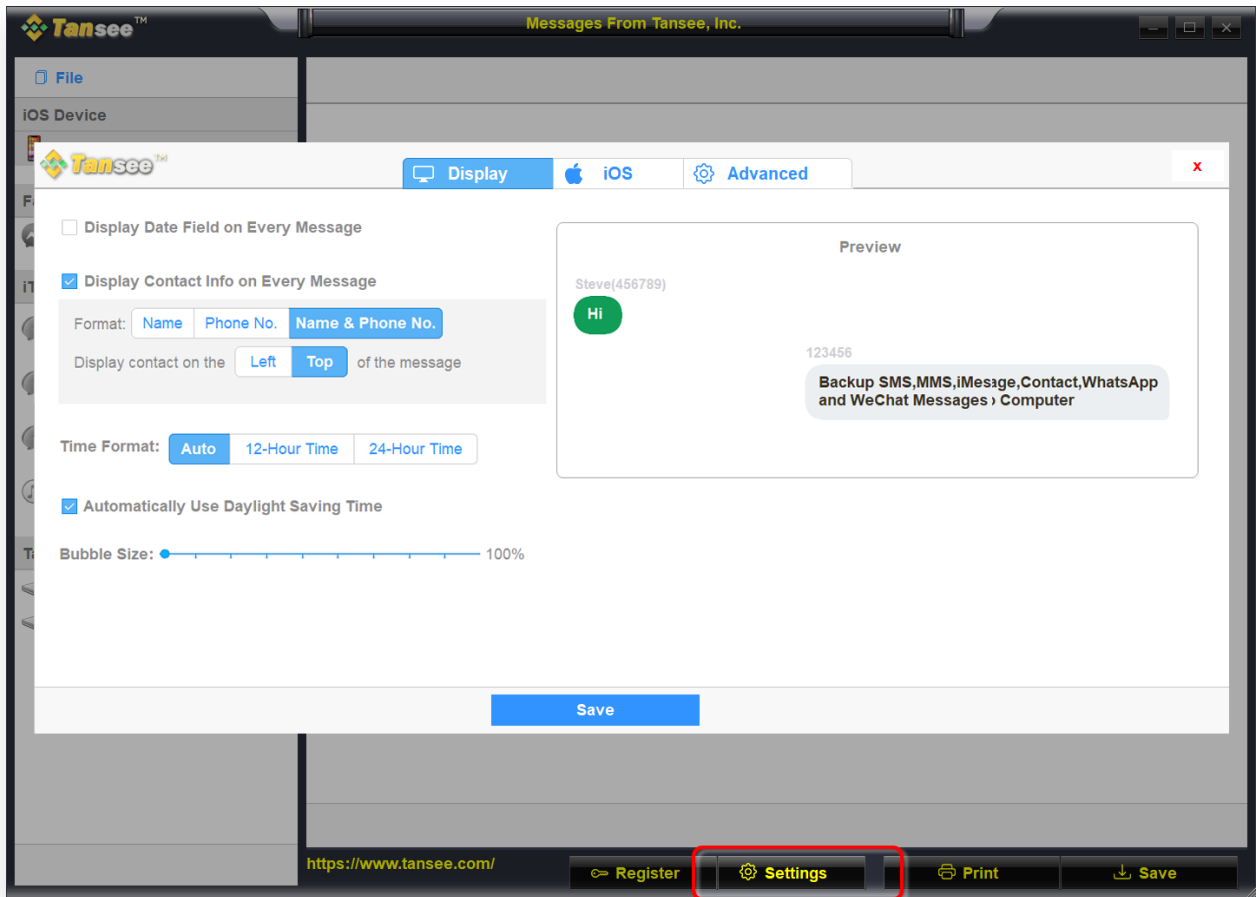

Backup messages

5 Click 'Print' button. Click 'Start Print'. Print messages exactly as they appear on your iPhone.

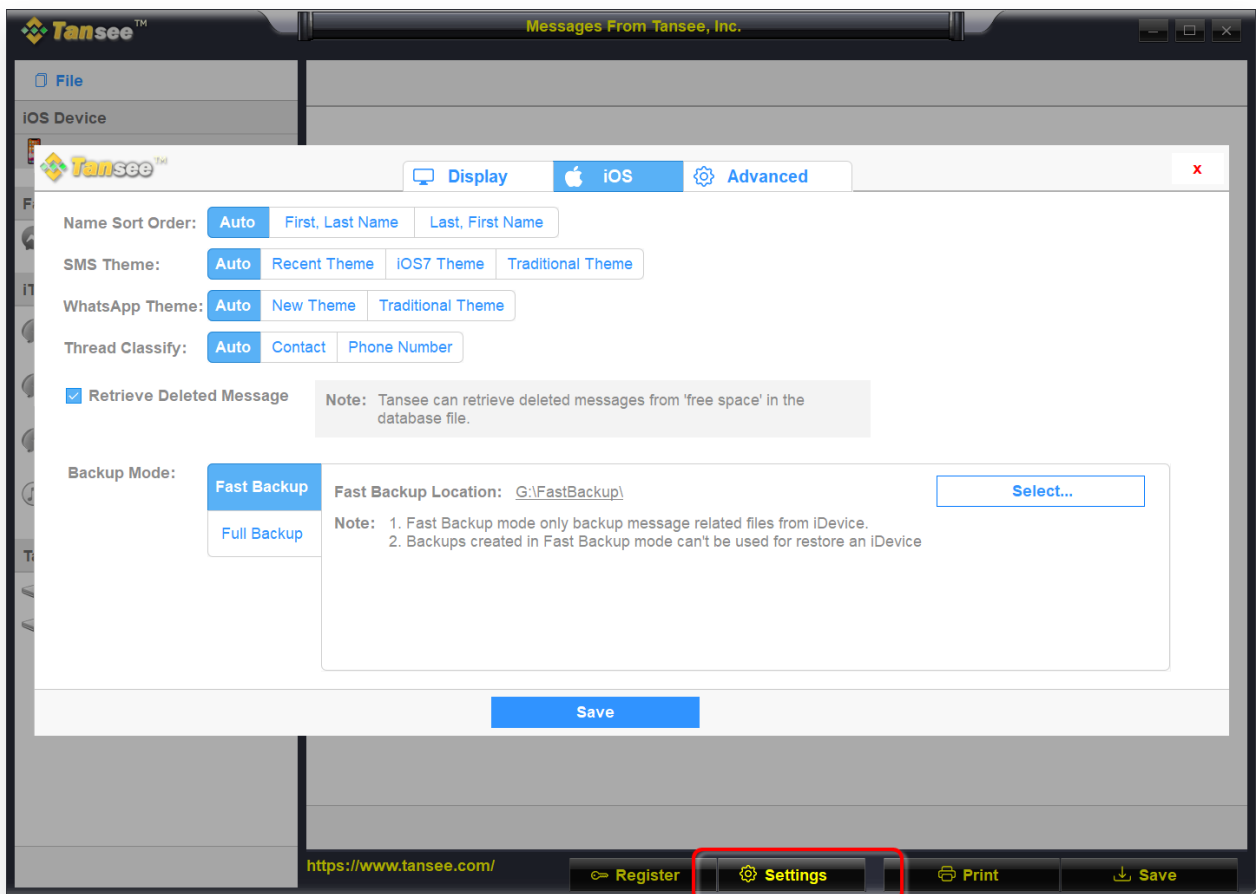

Print Messages

6 Settings

Display name and phone number

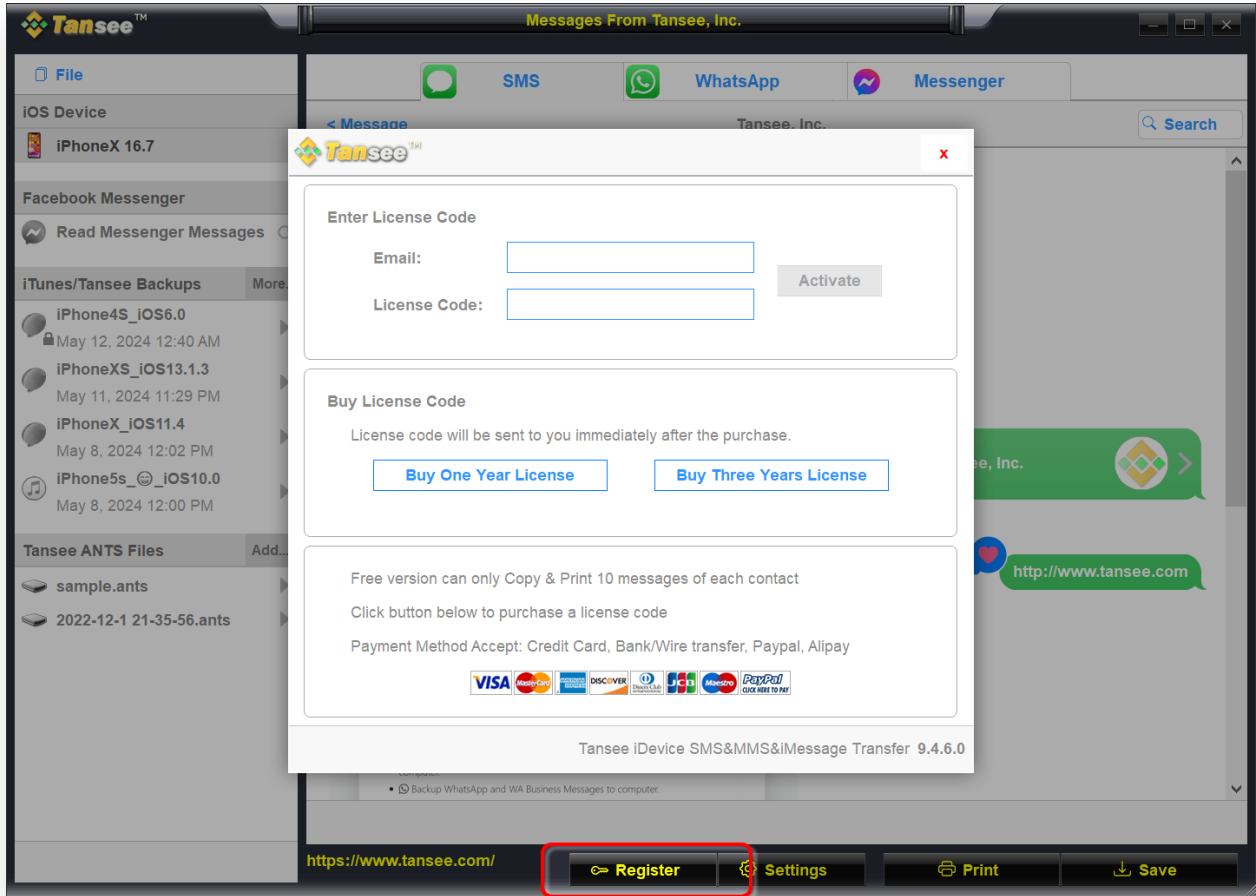

Retrieve deleted messages

Customize iTunes Backup location

- 7** Click Register button and put in your license code to get full version.
